

About Us :

It all began in 1994. The delicious journey of golden food products began under the brand name "golden". The journey of manufacturing wheat and gram flour, taking pride in its 'homemade' quality and retaining the taste and aroma of purity. Because we knew how important it is to a mother to choose the best and the purest for her children and family. We made it sure to handpick the best ingredients and to make them go through the most advanced manufacturing processes in our state of the art factories.

Today, golden food products is among one of the largest manufacturers of flour products in india.

Vision :

Our vision is to achieve the highest level of quality in fresh produce by combining nature's best with advanced technical know-how. The idea is to create golden food products brand par excellence in the food industry. We meet everyday needs for nutrition, hygiene with brands that help people feel good and get more out of life. Sustainability is at the heart of our business and through our brands, we seek to inspire people to take small actions everyday that can add up to a big difference for the world. Our deep roots in local cultures and markets around give us our strong relationship with consumers and are the foundation for our future growth. We will bring our wealth of knowledge and expertise to the service of local consumers. Our long-term success requires a total commitment to exceptional standards of performance and productivity, to working together effectively and to a willingness to embrace new ideas and learn continuously.

Mission :

Our mission is to lead the industry as the premier manufacturer and marketer of branded quality of food products. We consistently strive to exceed our customer's expectation through commitment to quality produce and sustainable growing practices. Our company continuously focuses its efforts to better understand the changing food habits and anticipate consumer needs in order to provide taste, nutrition, health and wellness through its product offerings.

Daliya

With the trend inclining towards healthy living, we proactively choose to have a nutritious meal.

Consider it a healthy trait or increasing passion to look great, something as basic as a bowl of Dalia looks tempting to health enthusiasts.

Daliya is high on fibre, protein and B vitamins, all of which play a crucial role in weight loss. Daliya makes for a great option for those on a weight reduction diet.

You can spruce it up by adding lovely and nutrient dense veggies like carrot, peas, tomato and capsicum.

Maida

Maida flour is been produced from highly refined wheat flour, extracted form the inner white portion of the wheat, after the outer brownish layer is removed.

Maida flour is been presented to you in fresh pack, which contains calories and Protein.

Maida is most commonly used in breads, cookies, pastries and cakes. It is used for making noodles, the outer coverings of momos, pasta, spaghetti, pizza crusts. In India. it is used in making traditional Indian pan-based breads like naans. Our breakfast staple - white breads are made with maida. It may be used to thicken sauces or as a crusty coating for fried foods. It is also used in Indian mithais.
